## ABOUT ME

I'm an American-born, Toronto-based Front End Developer focused on creating dynamic web experiences for all users. I'm a people person, a creative thinker, and a problem solver. I love to experiment with new technologies (currently exploring Gatsby, Netlify, and GraphQL), and I'm looking to join a team of people striving to make the internet an accessible, inclusive, wonderfully weird space.

## SKILLS

- HTML, CSS, SASS
- JavaScript, jQuery, React
- RESTful APIs
- Responsive Design
- Web Accessibility
- Version Control (Git/GitHub)
- Communication
- Public Speaking
- Critical and Analytical Thinking
- Customer Service
- Relationship Building

## EDUCATION

---

### Juno College (Formerly HackerYou)

- Intro and Advanced JavaScript, 2019
- Intro and Advanced Web Development, 2018
- Intro and Advanced Digital Design, 2017

### McGill University, B.A. 2017

*Major: Classics | Minor: Computer Science*

- Major GPA: 3.88 | Dean's List
- Co-founding member of McGill Women in Computer Science, 2016

## WORK EXPERIENCE

---

### Juno College (Formerly HackerYou)

*Continuing Education Operations Coordinator | February 2019 - July 2019*

- Scheduled ~50 annual courses, bi-monthly office hours, and bi-monthly workshops
- Managed logistics, including instructor team recruitment and support, for 12+ courses quarterly
- Managed stakeholder feedback to make continuous course improvements
- Produced and iterated on training processes

*Admissions Coordinator | July 2017 - February 2019*

- Marketed Juno's courses to prospective students, bringing in over \$650,000 in annual revenue
- Cultivated relationships with hundreds of new and alumni students, serving as academic advisor

### Trailhead Kingston

*Sales Associate and Kayak Guide | Summer 2016*

- Delivered weekly kayaking lessons and guided tours
- Provided excellent in-store customer service

### Camp Outlook

*Canoe Trip Guide | Summer 2015*

- Developed and delivered four 9-day and 14-day trips
- Target customer: at-risk youth, ages 13 - 18
